Re: LEE HARVEY OSWALD

OSWALD's Hair Samples, C20 - C25

On November 23, 1963, Special Agent C. RAY HALL, Dallas Office of the Federal Bureau of Investigation, observed BOBBY G. BROWN, assisted by Officer JACK DONOHUE, Crime Scene Search Section, Dallas, Texas, Police Department, obtain hair samples from LEE HARVEY OSWALD. As each sample was obtained, it was placed in a pillbox container, which container was sealed, marked and identified by Special Agent HALL.

On June 11, 1964, a photograph (C18 - C25) of the original evidence was examined by Special Agent HALL, who identified the handprinting on the pillboxes as his.
